This certificate of enrolment on the Gas Safe Register shall remain the property of the issuing body and shall be returned to Gas Safe Register upon removal of the holder's name from the Register for whatever reason.

For further information or to check the validity of this certificate please go to www.GasSafeRegister.co.uk or telephone 0800 408 5500.

Your business is now registered in the probationary category. The probation period is expected to last for a period of three months during which time we will contact you to arrange a site inspection visit(s) of the gas work that you have undertaken. During this site inspection, we will need you to arrange access for up to two customer sites that are within a reasonable travelling distance of the business address, and at least one of your qualified gas engineers must attend the inspection where the relevant gas safety tests and checks can be carried out.

Once we have inspected a representative amount of your gas work and are satisfied with the quality of the work, you will be notified that the probation period has ended. We would like to remind you that you must keep work records of all gas work undertaken and these must be made available during the inspection.

It's important that you attend your inspection, as failure to allow a work inspection will result in the business being suspended until a satisfactory inspection is completed.

IMPORTANT: Please keep this letter for your records. Should you decide to undertake further ACS assessments, you will need to show this letter and your licence card to an assessment centre as proof of your registration with Gas Safe Register.

If you have any questions regarding your Gas Safe registration please call us on **0800 408 5577**. Alternatively, email enquiries@gassaferegister.co.uk.

Welcome once again and we look forward to receiving your gas work information soon.

Yours sincerely,
